Re: Invitation Letter to attend the 6th Asian PGPR International Conference for Sustainable Agriculture, Tashkent, Uzbekistan, August 18 -22, 2019

Dear Prof. Shidong Li,

We are pleased to invite you to attend the 6th Asian PGPR International Conference for Sustainable Agriculture which will take place from 18-22 August 2019 in Tashkent, Uzbekistan. In the context of increasing international concern for food and environmental quality, the use of PGPR for reducing chemical inputs in agriculture is a potentially important issue. In this conference, we bring together the researchers, industry and policy makers under guidance of a core team of technical experts from Asian countries to deliberate and understand the strengths and weaknesses of the Asian region in developing products of PGPR for use by farming community. Hence, we cordially welcome you to join us and witness the advances in PGPR technology together in the 6th Asian PGPR Conference.

On behalf of the organizing committee, we are very pleased to inform you that your paper entitled “**Screening of a multifunctional strain *Streptomyces parvus* HS57**” has been accepted as an oral presentation, based upon peer-review by the technical committee of the event.

Please be advised, that the Conference Organizers do not have any funds to support your travel, hotel and registration fees etc.

Please do not hesitate to contact us if you have any other questions in this regard.

With best regards,

Dr. Dilfuza Egamberdieva
Founder and CEO
Ecobiome R&D

Organizing Chairman, 6th Asian PGPR Conference
